ESCO

PLASTICS COMPANY

WHY CHOOSE ESCO:

For over 40 years, ESCO Plastics has provided the highest quality urethane products in our industry while remaining dedicated to outstanding customer service. As a result, we have a high level of stability through a customer base that represents a wide variety of industries. When you choose to trust ESCO with your business, you will find a team of experienced professionals committed to exceeding your expectations. Our customers enjoy the peace of mind that this experience provides.

We have recently expanded into a 33,000 square foot manufacturing facility. This facility has been designed throughout to quickly and accurately fill orders, both large and small. Our plant takes up a small part of the 10 acres on which it sits. Therefore, we have plenty of room to expand as market conditions dictate.

We realize that our growth depends on your growth and we will work to that end. Even though our current floor space makes us one of the largest urethane facilities in Texas, our goal is to continue growing on the foundation we have already established.

WHY WORK WITH ESCO:

- over 40 years in the urethane industry.
- knowledgeable and experienced team members to help at all stages in the procurement process.
- on time delivery.
- exceptional quality.
- quick and accurate quotes.
- competitive pricing.
- a worry free purchasing experience.
